

# SWISS RAIL TIMETABLE 2019

Swiss Federal Railways published for the last time their 3 volume timetable in 2017.

Thanks the initiative of the Swiss Traffic Club VCS, together with Pro Bahn Switzerland and the Association for public transport IGöV, a timetable will also be published for 2019 and if demand remains this will continue in the future. The new edition will now consist of 2 volumes: apart of the roughly 900 gram weighing volume 1 with all timetables for railways, funiculars and lake steamers, station index and general information, it will have a second volume for the following reason (official text from VCS): From 9 June 2019 to 20 December 2020, the Zug - Art-Goldau line will be closed due to construction work and trains from Zurich will be diverted via Rotkreuz. This leads to massive timetable changes on the north-south axis via Gotthard with additional space requirements in the timetable book. Therefore, all timetable fields between Zurich / Lucerne and Chiasso are displayed in a separate book (Volume 2). Both parts (Volume 1 & 2, together about 1300 gram) are delivered together and sold as one unit.

and supplement (Volume 2)

The price for the new timetable for 2019, valid from 9 December 2018 on, including the supplement is CHF 19.80 or € 17,60. It will be available at **FAHRPLANCENTER** from 7 december 2018 on.
