

Dear subscriber, dear customer

You get: the **EUROPEAN RAILTIMETABLE**,
from **FAHRPLANCENTER**

As you probably know, **FAHRPLANCENTER** will close permanently on December 31, 2022. Also, there are more and more problems with shipping goods, especially to the EU and you pay import taxes there and in the meantime, the shipping costs from Switzerland have again increased by around 50%.

Would you like to receive the timetables for winter 2022/23 and after?

In this case, you have the option of ordering them directly from EU importers or the publisher. I can't tell you what a subscription/single issue will cost there.

Get an offer. Order by email or letter no later than early October 2022 so the providers can plan in time and let me know your decision very briefly so I know if I still need to order the December 2022/Winter 2022/23 issue for you.

In this case the timetable may not be distributed before the end of January 2023, for health reasons.

Please write in English in any case.

Next is your detailed address including email address.

And please don't forget to cancel your order from **FAHRPLANCENTER** before October 15, 2022 (after that I will be in the hospital until January 2023) Thank you for your cooperation and understanding.

Best wishes. Kind regards Samuel Rachdi
