

The end of Thomas Cook Timetables

Thomas Cook European Timetable monthly edition
Thomas Cook European Timetable half-year edition

Dear customers

On June 26, 2013 Thomas Cook Publishing at Peterborough England officially announced that from August 2013 on **publication of all its printed products** (Timetables, Maps, Guides) **will end**.

The decision is definitive.

Early August 2013 the very last issue of the monthly Thomas Cook European Timetable will be printed.

The very last issue of the half-yearly Thomas Cook European Timetable was already published in June 2013.

From September 2013 on no new issues of these two very popular publications will appear.

The planned new edition of the Thomas Cook Rail Map of Europe will not be printed. This to your information.

What this will mean for **FAHRPLANCENTER** is still uncertain, in the worst case it could mean the end of business, because Thomas Cook products have become the most important ones sold by this shop. But for the moment I will still continue.....

Best regards

Samuel Rachdi
